

# CLASSIC PRIME COAT

## Polymer Cementitious Prime Coating

### Product:

**Classic Primecoat** is a two pack polymeric cementitious system, primary protective coat for concrete. Provides a thin section coat with good bonding between old and new surfaces.

### Description:

**Classic Primecoat** is a thin section polymeric coat designed to provide an excellent bond between old and new surfaces.

### Advantages:

- Easy to apply
- Pre-packed
- Excellent weather resistance
- Excellent bonding
- Contains no corrosive substances

### Coverage:

A 2 kg will cover approximately 7 m<sup>2</sup> area.

### Pack:

Available in 2 Kg, 1 Kg packing.

### Uses

All concrete surfaces where bonding is required.

### Typical Properties:

**Working life at 20°C**-----30 minutes

**Touch dry time at 20°C**-----4 hours

### Storage Life:

At least one year in manufacturer's undamaged, sealed containers, when stored in dry, frost-free conditions.

### Instruction for Use:

#### Surface Preparation:

The concrete should be cleaned with wire brush or acid. All dust particles should be removed to achieve good bonding of coating.

#### Mixing:

**Classic Primecoat** is supplied in two pack system with a powder component and the respective pre-weighted amount of liquid. The liquid should be poured into the suitable mixing vessel and the powder should be done until a homogeneous colour is achieved

#### Application

One coat of mixed **Classic Primecoat** should be applied by brush on substrate.
